

Nucleolin

Antigen Specification

Product Number: 19700

Description:

Human Nucleolin.
Recombinant antigen for in vitro research and manufacturing use only.

Immunological function:

Binds IgG-type human auto-antibodies.

Origin:

Recombinant. Expressed by recombinant baculovirus (*Autographa californica* multiple nuclear polyhedrosis virus; AcMNPV) infection of *Spodoptera frugiperda* Sf9 insect cells.

Expression construct:

Truncated cDNA coding for the C-terminal part of human nucleolin (lacking the N-terminal histone-binding portion of nucleolin) fused to a hexahistidine purification tag.

Biochemical tests:

SDS-PAGE (purity > 80%); Western blot with i: rabbit anti-Nucleolin antiserum; ii: monoclonal anti-His-tag antibody.

Calculated molecular weight:

55 kDa

Calculated isoelectric point:

pH 8.56

Immunological tests/Functionality:

Immunodot analyses with positive/negative samples.

Recommended buffer/storage and handling conditions:

Recommendations for storage buffer: neutral to slightly alkaline pH and 25% glycerol as cryoprotective agent. Storage conditions: -70°C or below. Repeated freeze/thaw cycles should be avoided.
